AN UNCHECKED AND RAPID DECLINE IN PROVISIONS AND WHEAT .- [Special to the Baltimore American.]-Chicago, July 19 .-There has been considerable excitement during the past week in consequence of a rapid and unchecked decline in grain and provisions on 'Change. The favorable crop reports, rumors that the combination which has held wheat up for a few months past were selling out, and the expectation of an outbreak of yellow-fever in southern cities, have combined to depress prices. The cash decline on wheat has amounted to about 14 cents during the week, the lowest sales being made to-day, when on call wheat sold for July option at 864. There were rumors of failures, but so far as is known they were only temporary embarrassments, and all of the firms interested are expected to continue business on Monday. The clearings to-day were larger by a million and a balf bushel than usual, on account of heavy deliveries of wheat by the combination. The total deliveries made by them were 1,700,000 bushels here and 800,000 bushels in Milwaukee. It is understood that they are rapidly getting out of the deal, and the culmination of the break will come Monday, if it has not already been reached.

WILLIAM B. ASTOR'S SCHEMES IN GEORGIA. Atlanta, Ga., July 19 - William B. Astor, at the head of a New York and Boston company, has offered Georgia \$1,250,000 for the Macon and Brunswick railroad. If they ean buy this road they will put on a line of steamers at Brunswick, plying for South American trade, and the special idea is to give Jacksonville, Fla., where Mr. Astor has just invested \$300,000, a convenient port. If they buy the Macon and Brunswick road they will continue it to Atlanta, and thus flank the Georgia Central, which now controls from Atlanta southward. Ambassadors have just left Port Royal for Europe, at the call of European capitalists, armed with power from the road running from Louisville to Port Royal to guarantee rates with northern roads for bringing western crops to the coast, if a line of steamers is put in at Port Royal. BATTLE OVER DISPUTED SILVER-MINES .-Leadville, July 20.-On Friday night a body of 350 armed men drove away the "jumpers" on the Halfway House, the Buckeye Billie, and the Morning Star lodes. A low weeks ago Uncle Tom shouldered bis trusty rifle, and off for a deer hunt be went. After leaving his homestead a mile or two and arriving at one of those famous salt-sri phur lakes which abound in West Virginia Uncle Tom perched himself high up among the branches of a stately oak. I've had not remained long in this position until a large black bear followed his trail to the foot of this majestic oak. Uncle Tom, viewed his bearship very carefully for a moment, and then with steady aim fired at the animal. From he bear's fearful wail he knew the ball had taken effect. After many drops of cold sweat had dropped from our hero's fair cheek, and bis be earship had passed from view, he once more ventured to the earth and made for his home with all the celerity of his youthf at days, far outstripping the animal, although it followed him in hot pursuit for so me distance. SEWERS .- Editor Avalanche: Who ever heard of a city of 40,000 to 50,000 inhabitants without a sewer system? It is the human filth in the earth that produces the germ for fevers. Did you ever think of the fact that there are fully 200,000 tons of human filth in the old and new privy-holes in this city? This permeates through the earth, and what is not drawn out by the heat of the sun finds its way into the cisterns, two thirds of which are, more or less, so affected. So, what of this filth we do not breathe we are forced to drink.

You may wash your streets every day with cologne- or rose-water and it will do no good, for that merely removes the surface filth. Unless our people do look these facts square in the face, and go to work in earnest and get at the bottom of the trouble, she will become an eyesore to the country and

plague-spot on the face of the earth. There is but one remedy, and that is a thorough sewer system; and no city, great or small, is so well and naturally drained as is Memphis. In this respect nature has

been more than bountiful. Now, these are facts that our people had as well think over and quit tinkering, but go to work to do something that will be of some permanent good. John Cowdon.

SALT RHEUM.

HELPLESS FOR EIGHT YEARS-UNABLE TO WALK-GOT ABOUT ON HANDS AND KNEES-A WONDERFUL CURE.

Messrs. Weeks & Potter: Gentlemen,—I have thad a most wonderful cure of Salt Rheum. For seventeen years I suffered with Salt Rheum; I had it on my head, face, neck, arms, and legs. I was not able to walk, only on my hands and knees, for one year. I have not been able to help myself for eight years. I tried hundreds of remedies; not one had the least effect. The doctors sald my case was incurable. So my parents tried everything that came along. I saw your advertisement and concluded to try CUTICURA REMEDIES. The first box of CUTICURA brought the humor to the surface of my skin. It would drop off as it came out, until now I am entirely well. All I can say is, I thank you most heardly for my cure. Any person who thinks this letter a fraud, let them write or come and see me and find out for themselves. Yours, truly. WILL MCDONALD.
